

GREEN BUDGET STATEMENT STRUCTURE

[1] Cover Page

The cover page can be a representation of environmental and cultural significance the 'green' concept of the government.

[2] Preface

This section can outline the government's commitment and vision for green budgeting.

[3] Introduction

The concept of green and rationale for green budgeting can be described here.

[4] Approach and Method

In this section, the approach and method along with limitations can be explained.

[5] Key Achievements and Case Studies

Financial and descriptive analysis including any physical achievements along with case studies in box items can be included in this section.

[6] Green Budget Summary

Here a simple tabulation giving the big picture can be added. Baseline indicators can be considered. This could include total budget outlay, total green budget, percentage of green budget from the total identified scheme/programmes, number of schemes, and number of departments. Information can be provided for the present and previous financial year/s.

[7] Mapping Schemes

Here graphical representation of ministry/ department mapping, activity mapping, theme mapping and SDG tagging of green budget can be depicted.

[8] Annexures

The annexures will include tabulation of various budget items including ministry/ department name, code, scheme name, scheme budget, green budget component and descriptive summary. Mapping can be undertaken according to the proforma.

Note: This structure is illustrative only and stakeholders can further innovate
